Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

A, ☒ Insert the attached "ABSTRACT" as page 21 of the specification.

Reasons For Allowance

3. The following is an examiner's statement of reasons for allowance: the prior art of record fails to set forth or fairly suggest implementing a contactless credit card in a credit check environment working in combination with a computer transmitting terminal; wherein the card itself includes a self-powered and signal transmitting abilities such as described in independent claims 1 and 10. Dependent claims 4-6 are allowable for at least this reason.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bruhnke et al. (5,449,894) teaches a batteryless ic card. However the ic card lacks the ability to transmit signal to be implemented in a credit check environment such as required by the claimed invention.

Remarks

The parentheses in lines 12-13 of claim 1 has been informally changed to comas to enhance the clarity of the claim language.

The content of the abstract is a verbatim version of the abstract disclosed in the PCT publication WO97/00501. It has been inserted in the present application to render the specification in conformance with the U.S. patent format. No additional comments or corrections are believed to be needed from applicants.
